

Our Programs, Products and Services

indigigrow.com.au

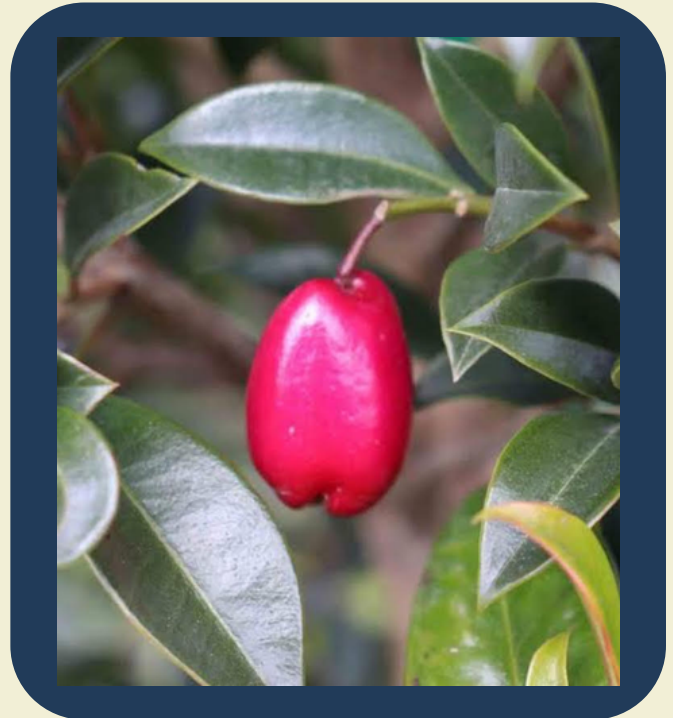

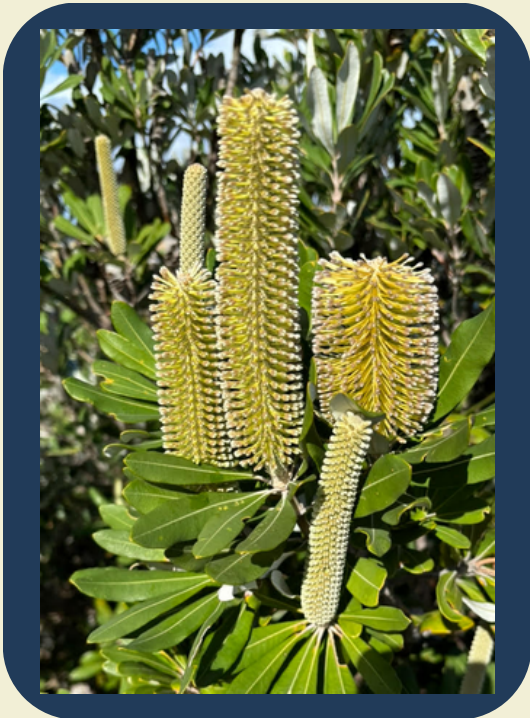

Native Plant Nurseries - Wholesale

Local coastal Sydney plants - Critically endangered Eastern Suburbs Banksia Scrub

Native edible plants - bushtucker

General native plants

Are you looking for a hands-on team building activity for your team that makes a difference?

We offer corporate volunteering days at our native plant nurseries and bushfood farm working alongside our experienced IndigiGrow staff & young apprentices.

We can accommodate a minimum of 8 participants, with a maximum of 50 volunteers per day.

Volunteering activities could include:

- IndigiGrow cultural talk
- potting up
- propagating plants and seeds
- weeding and mulching
- maintenance in our bushfood farm
- watering and fertilising plants and gardens
- ESBS education park restoration

Apprenticeship Employment Program

Donate or sponsor

We are seeking donations and sponsorships for our apprenticeship program to allow us to employ more of our local, young people and provide them with recognised training and lifelong employment skills, whilst passing on cultural knowledge - to strengthen their cultural connection and identity.

IndigiGrow currently has 3 apprentices and 3 completed their apprenticeship at the end of 2023. Two of those apprentices have now been appointed as Nursery Managers at both of our nurseries.

Individuals - You can donate directly through our website, internet banking or through workplace giving.

Corporations - Can donate or sponsor directly as part of your CSR program.

All donations of \$2 or more are tax deductible and we can issue you with a tax deductible receipt upon request

Email Peter at peter@firsthandsolutions.org.au if you would like to chat about supporting our Indigigrow Apprenticeship Employment Program
